Representatives Ransdale and Robertson, of Louisiana, presented themselves and took the oath of office.

IS REMANDED BACK TO JAIL.

After Hearing Before Mayor Alleged Wife Murderer Returned to Cell.

Greensboro, N. C., Dec. 7.—Dr. Matthews, charged with wife murder, was remanded to jail after hearing before Mayor Murphy Testimony of three physicians and other witnesses showed he had during the day made repeated attempts to be with his wife alone, after which it seeme she was on the way of recovery. The last successful effort, while he was pretending to pray, they said, was the immediate cause of her death.

The coroner gave a graphic description of the scene when he snatched the hypodermic out of Matthew's hand and saw it withdrawn from the dying wife's arm.

Analysis of residue showed strychnine. All physicians said the original cause of her sickness was from morphine, not strychnine, as her husband had declared.

The defendant was put on the witness stand. He was calm and collected, making no suggestions to attorney, but sat beside his father. Great beads of perspiration formed and rolled from his head.

Tate Nominated District Attorney.

Washington, Dec. 7.—In the list of appointments sent to the senate Tuesday were two in which the people of Georgia have a deep interest. These were the appointments of Hon. Carter Tate to be district attorney of the northern district, and the reappointment of United States Marshal Walter Johnson. Both appointments have been fully expected. The Georgia senators will see that the nominations are promptly confirmed.

In the list of army promotions there appears the name of Colonel Butler D. Price, of the Sixteenth Infantry, long stationed at Ft. She said her uncle went to Mexico about two years ago as a prospector and later as superintendent and paymaster of the Elica Jon mines, operated by a New York syndicate. The niece added that when Mr. Simonton and his family were last heard from here about six months ago they were at LaYaqui, Sonora, Mexico, and they stated they resided in the wilds over 60 miles from white habitation. There were none but Indians among their workmen. No confirmation of the murder was received at Altoona yesterday.

Senator Clay will introduce a similar bill in the senate within a few days. CONSUL DEAD IN MEXICAN TRAGEDY

Well Known Writer and an Author of Note

IS INSTANTLY KILLED BY A CAR

Coachman Tried to Cross Street in Front of Rapidly Moving Car Which Struck Carriage, Knocking Him Out Against Post, Tearing His Head Off.

Chicago, Dec. 7.—A Tribune special from Mexico City gives further details of the accident in which James Russell Parsons, United States consul general, lost his life there. He was in an open carriage in which he was driving with Mrs. Pasons and their son, which was struck by an electric car.

Mrs. Parsons was slightly injured. The boy escaped without a scratch. The accident happened while Mr. Parsons and his family were going to the Central station to bid farewell to some friends. The coachman tried to cross a street car track in front of a rapidly moving car, which struck the carriage with terrific force, crushing it against a trolley post. Mr. Parson's head struck the post, the whole top of the head being taken off.

When assistance arrived the body was lying with the head and shoulders on the pavement and the feet in the wreck of the carriage.

Mrs. Parsons was staggering blindly around, stunned by the shock, and muttering incoherent sentences, inquiring where she was and where she was going.

"Mamma, I think papa is killed," said James Russel Parsons, Jr., but Mrs. Parsons was too dazed to realize the truth.

Mrs. Parsons was immediately taken by friends to her residence, where medical assistance was given. Mr. Parsons' body was taken to the police station, according to the police regulations, where the remains will be held pending an order from a judge.

So far superficial examination failed to reveal a single injury or even a bruise on any part of the body except the top of the head. Not a bone is broken and except for blood stains, the face appears perfectly natural.

Until the police investigation is concluded there is no means of fixing the responsibility, as no actual eye-witness was close enough.

The motorman and driver of the coach both disappeared immediately after the accident and have not yet been arrested. News of the affair spread rapidly among members of the American colony.

In 1897 he was made director of colleges and high school departments and secretary of the university of New York. Mr. Parson was well known as a writer. Resolution Proposed In Regard to a New System of Government.

Special interest was taken by those present at the convention in the advent of the New Liberal administration at Westminster.

In this connection the following resolution will be proposed. We solemnly assert that no new system of government in Ireland will be accepted as satisfactory except a legislative assembly freely elected and representative of the people with power to make laws for Ireland and an executive government reaponsible to that assembly and this convention declares that the Irish national party cannot enter into an alliance with or give permanent support to any English party of government which does not make the question of granting such an assembly to Ireland as a Cardinal point of its progress.

WILL TRY TO PREVENT SUICIDE.

Of Recent Korean Minister to France. A Custom that Prevails.

New York, Dec. 7.—Interest in the arrival of the Kaiser Wilhelm II, due here today is increased because of the fact that the steamer has on board Min Ying Tchan, until recently minister from Korea to France, and who will not know until he reaches New York of the death of Prince Min Yong Whan, who committed suicide as a result of the establishment by the Japanese government of a protectorate over Korea.

A Korean custom is that if a person's brother committed suicide, he must also do so. Friends here hope that Mr. Min will not follow the national custom.

The Kaiser Wilhelm II docks at Hoboken. Sergeant Slattery in charge of Hoboken police quarters last night said that Chief of Police Hayes would undoubtedly take every precaution to prevent a suicide.

Cunningham is a young negro, 19 years of age, who killed a negro woman who furnished him whisky. The crime is said to have been the result of his intoxication from this whisky.

He is sentenced to be hanged on Friday, Dec. 15. Some of the most prominent white people of Jefferson county have interested themselves in his behalf and have urged the commission to grant the commutation. The matter will be taken up for immediate action when the commission meets next Tuesday.

DETERMINED TO CARRY OUT REFORMS

Promised by the Manifesto of October 30th.

OFFICIAL MANDATE IS ISSUED

Impossible to Accustom at One Stroke Population to New Order of Things Thus Created—Measures Being Taken to Cope With Disturbances.

St. Petersburg, Dec. 5, Tuesday, Via Eydtkuhnen, East Russia, Dec. 6.—An official note was issued today explaining that while the government is inflexibly determined to carry out the reforms promised by the imperial manifesto of Oct. 30, it is impossible at one stroke to accustom the population to the administration of the new order of things created by the manifesto.

Until the new legislation required by the reforms is affected, the old laws must be enforced, except where they are already replaced by the temporary provisions.

The note adds that the drafts of the provisional regulations governing freedom of the press and the right of association have been completed that the deliberations regarding the reform of the council of the empire and the extension of the franchise are nearing a conclusion and that the elections to the national assembly are being expedited. At the same time measures are being taken to cope with the disturbances which are endangering public security.

MASTER PLUMBERS LOSE SUIT

Injuction Against Association Is Made Permanent by Judge.

Atlanta, Dec. 7.—The Master Plumbers' association was on Tuesday permanently enjoined by Judge Pendleton from interfering with the business of M. C. Vandiver, who about a year ago brought suit, alleging that he was about to be driven out of business by the association.

Mr. Vandiver charged that the local association of master plumbers is a branch of a national association which has by-laws in restraint of trade. He alleges that unless a master plumber was a member of the organization he could not purchase supplies anywhere in the United States.

He charged that these alleged by-laws had been put in operation against him, and that he was being forced out of business thereby. He asked an injunction to restrain the association from further interfering with him.

Judge J. H. Lumpkin was at that time on the bench, and he issued a restraining order and set the case for a hearing. Since that time he has been succeeded by Judge Pendleton, and the latter took the case up for a hearing nearly a month ago. He has heard argument on it for days past.

Tuesday he handed down his decision, which made the injunction permanent, on the ground that the organization of master plumbers is held together by a contract in restraint of trade.

The case has attracted widespread attention, and the result will be learned with interest. It is probable, however, that the supreme court will have to pass on the matter before it is finally disposed of.

FLETCHER WATSON AGAIN ON TRIAL

Charged With the Killing of Garrett V. Chamberlain Last Year.

THE CASE BEGAN THURSDAY

Jury Was Secured Before Noon, and Taking of Testimony Began in Early Afternoon—Mistrial of Case at Spring Term of Court.

From the standpoint of grave importance, the fourth week of the fall session of the circuit court for Alachua county will go on record as being the banner week of the term, inasmuch as there is on trial now Fletcher Watson, a young negro charged with the murder of Garrett V. Chamberlain near his home, Tacoma, last year. This case was called at the spring term and occupied three days, resulting in a mistrial. It was again set for trial Thursday morning, and it was necessary for the court to order a special venire of thirty-six in order to secure a jury, which was completed just before the noon hour, as follows:

B. W. Waits, Joe Nobles, E. K. Fagan, James Guinn, H. J. Riles, J. W. Raulerson, William Shannon, Frank Cauthern, C. D. May, F. V. Wiggins, J. B. Connerly, J. A. Connerly.

The taking of testimony began at the afternoon session, and several witnesses were examined during the afternoon, when court adjourned until 9 o'clock this morning.

The attorneys in this case for the State are State's Attorney Calhoun, Thomas & Ellis, B. A. Thrasher and C. Matheson. The defendant is represented by Attorneys Syd L. Carter and W. E. Baker.

It is anticipated that this case will occupy the attention of the court until Saturday night, when an adjournment will be taken for the term, leaving the docket clear with the exception of a few cases of selling liquor in a dry county, and a few minor cases, which have been continued until spring.

REAL ESTATE STILL MOVES.

Several Valuable Transfers Made Recently—Others on Tapis.

Real estate in this city and section is still active, transfers being made almost daily. A great many people from the North and other sections of the country are being attracted here, many of whom are buying homes and will become permanent residents.

Among the latest transfers was the home of Mrs. Emma George, North Gainesville, which has been sold to Miss Ada Giddings. This is one of the most desirable properties in a suburb noted for pretty homes, and friends of the new owner are congratulating her. It is understood that Mrs. George, who has been residing here for the past seven or eight years, will spend the winter in Bowling Green, Ky., where her son, Vernon, is attending college.

Orr & Steenburg, the real estate dealers, have just closed a trade with Mrs. Annie Simmons of Ward City for an elegant 40-acre farm near this city. Mrs. Simmons will occupy the same at once.

A number of important deals in city real estate are on the tapis, but at present no definite announcement can be made, as there has been no actual transfer of deeds.

FOOD OR STIMULANT.

Ask your doctor if when he orders a patient to drink lots of pure milk he advises the addition of a large quantity of whiskey. He'll tell you "no" very emphatically. Yet there are people who, when ordered to get Scott's Emulsion, will accept some wine, cordial or extract of cod liver oil and think it is the same thing or better. If you want and need cod liver oil in its best, purest and most easily digested form, get Scott's Emulsion. If you want whiskey, that's another matter, but don't look for the same results.

PENNSYLVANIA FLOOD RECEDING

Intense Cold Weather Responsible for Quick Abatement.

Pittsburg, Dec. 5.—The flood caused by the sudden rise in the Allegheny, Monongahela and Ohio rivers which threatened much damage to the cities of Pittsburg, Allegheny and McKeesport and vicinity passed off today.

The highest water mark reached was 24 feet early today. At 10 o'clock the water had receded over 2 feet and was falling slowly.

The cold weather prevailing was responsible for the quick abatement of the flood.

All the lowlands in this vicinity were partially submerged by the rise of the water and while much inconvenience resulted it is not thought the financial loss will be large.

D. T., J. W. and W. G. English, Mrs. G. V. Chamberlain, Miss English, R. M. Chamberlain and G. S. Chamberlain of Tacoma, J. N. Craig and Henry R. Stokes of Micanopy are in the city, having been summoned here as witnesses in the case of the State vs. Fletcher Watson, charged with murder.

Lucy Jackson, an aged colored woman who calls Palatka her home, was found in the burned building next to the home of C. C. Pedrick, West Main street S, Thursday morning. The case was reported to the officials, who went to the scene and discovered that the unfortunate woman was ill. She was removed to the county poor farm, where medical assistance was rendered.

Among the prominent visitors to this city yesterday was John W. Pearson, an extensive phosphate miner of Ocala. It will be remembered that Mr. Pearson was for a long time experimenting and prospecting for oil in Citrus and Sumter counties, with some degree of success. He sank two wells, from which he secured several hundred gallons of crude oil, which he now has in his office at Ocala. He is confident that oil exists in Florida in abundance, and intimates that he will prove it some day.

A GAINESVILLE GIRL

Writes An Interesting Letter Regarding the Florida Female College.

Editor Gainesville Sun: Allow me space in your valuable paper to say a few words concerning the Florida Female College at Tallahassee, as I think your readers might enjoy knowing something about the work that the pupils of this newly established college are doing.

There are thirty-six of the forty-five counties of Florida represented, which we think a fine beginning.

There are two departments of music—vocal and instrumental. Both are under the management of skilful teachers. Great interest is taken in this work.

The gymnasium has been open about four weeks, and we find that spending one hour twice a week is a great rest mentally and of much benefit physically to the students.

If there is such a thing as more interest being taken in one department than in another, I think it is in the Department of Domestic Science. The kitchen is well furnished and every advantage is offered to make the work entertaining as well as instructive. Miss Jones, the head of the department, gives excellent instruction and hopes to turn out young ladies who will make the most efficient housewives of Florida.

The Art Studio is a place where all like to visit and see the beautiful work done by those who are so fortunate as to have talent in that direction.

Good work is being done in the School of Expression, the Kindergarten and Model School, and also in the Department of Domestic Art, but for fear of making my letter too long, I will not take time to mention them now.

We have two literary societies—the Thalian Literary Society and the Minerva Club. The "five Gainesville girls," as we are called by our Tallahassee friends, have the pleasure of being members of the latter, Miss Lena Baird being president, Miss Whetstone, vice-president, and Miss Gertrude Westgaard, secretary.

We all regretted very much that Miss Baird had to leave us, but we hope that she will soon regain health and be able to return to college and resume her place in the dormitory and her duties in the class room.

Friday evenings are looked forward to with much pleasure by the girls. The work being done for the week, we all spend a delightful evening together. Something is nearly always planned ahead of time. We enjoyed a trip to a delightful cane-grinding a few Friday nights ago.

Many of the girls went home for Thanksgiving and things were not quite so lively, for those of us who were left behind felt that we would like to have joined the family circle, if only for a few hours.

Thanksgiving Day was very much enjoyed by those of us who remained in the dormitory.

An enjoyable surprise in the form of a delightful tea was given the girls Thursday afternoon, November 30th, by Mrs. Kettle.

The all-absorbing thought now in the minds of the girls is the Xmas holidays, when we hope to enjoy once more the pleasures of home life.

Failed.

All efforts have failed to find a better remedy for coughs, colds and lung troubles than Foley's Honey and Tar. It stops the cough, heals the lungs and prevents serious results from a cold. J. N. Patterson, Nashua, Iowa, writes: "Last winter I had a bad cold on my lungs and tried at least half a dozen advertised cough medicines and had treatment from two physicians without getting any benefit. A friend recommended Foley's Honey and Tar and two-thirds of a bottle cured me. I consider it the greatest cough and lung medicine in the world." J. W. McCollum & Company.

THE STORY OF VINOL

By W. M. Johnson of Gainesville.

Our experience with medicine extends over many years. We have had ample opportunity to watch thousands of them and their results, and we can honestly say that we've never sold a medicine in our store that gives more universal satisfaction than does Vinol.

This is because Vinol possesses intrinsic merit, and we want everybody in Gainesville to know more about it, and why we stand behind it.

For centuries cod liver oil has been recognized as the grandest of all body-building agents for wasted human strength and vitality—yet on account of the disagreeable odor, taste and heavy indigestible oil which envelopes its curative elements, it invariably clogs the system, upsets the stomach and its virtue lost.

Now modern science has proved that the oil or greasy part has no value, either as a food or medicine, and the medicinal elements of which there are about fifty different kinds in the cod's liver represent all the tonic, body-building and curative powers of this famous old remedy.

After twenty years' of study two eminent French chemists discovered a way to separate all these medicinal elements from the oil and livers and give to modern medicine all the valuable curatives of the cod's liver without a drop of the useless oil, and thus made Vinol.

Vinol, therefore, is guaranteed to contain in a highly concentrated form all of these medicinal curative and body-building elements actually taken from fresh cod's livers, without oil, and for this reason it is fast superseding old-fashioned cod liver oil and emulsions.

As a body-builder and strength-creator for old people, weak women, puny children, for the anaemic and after sickness, and for all pulmonary troubles we honestly believe it has no equal W. M. Johnson, Druggist.

Brinson, for the past two years a member of the faculty of East Florida Seminary, is enjoying the most prosperous success in its history, having been greatly increased in numbers.

Col. Chubb remarks that Prof. Brinson is a most competent man, and is making a fine success of the business department.

INSANE WOMAN STILL HOLDS CAR

Took First Drink for Four Days—Refuses to Take Food.

Girard, Kans., Dec. 7.—Mrs. Irene Berry Tuesday still held undisputed possession of the railway coach on the railroad tracks here, in which she had been barricaded since Friday last.

Early Tuesday she went into the car aisle to get a drink of water, the first she has taken in four days. She still refuses to partake of proffered food. She conversed with officers on guard at the car, saying she would kill her enemies, "but did not want to kill everybody." Plans for the woman's capture are still being proposed, but no effort has been made to carry them into effect.

A Fearful Fate.

It is a fearful fate to have to endure the terrible torture of piles. Also best for cuts, burns and injuries. 25c at all druggists.

One feature of the President's message was its length, requiring three hours to read it before Congress.

Judging from the troubles the starving people are having in England to get bread, it can't be charged that they eat too much over 'ome.

There must be a large settlement of Philadelphia Quakers in Cuba. It was discovered just before the presidential election that 100,000 more names were registered than there were voters.

A fellow who was a human wreck was refused aid from a woman in a neighboring city, because she had just read of eleven persons losing their lives in a wreck on the shores of Nova Scotia.

The price of cotton has caused the growers to wear a broad smile, which won't come off until they go to buy some cotton goods sometime next spring. They will then find out who pays the freight.

If more attention would be given to actual business for Florida, so that we could get the country developed, it would be better for the State. The one way is to build good roads and keep them good.

People should avoid peculiar circumstances and keep out of their way as much as possible, for the announcement comes from New York that "a woman died under peculiar circumstances" in that city a few days ago.

The Atlantic Ice and Coal Company is being sued for allowing a large number of eggs to spoil that were in cold storage. If the people who bought the eggs didn't kick, there certainly is no occasion for the wholesalers finding fault.

Mark Twain is the genius who knows what to do with a story when it gets too complex for him. Norman Hapgood, in Collier's Weekly, quotes him as saying that when he involves the characters in a story so that he sees no way to extricate them from their difficulties, he simply washes his hands of the whole business.

The Arcadia Champion will soon have a new office on the ground and appear just the same as though there never had been a fire. You can't keep a good man—or woman we should say—down. Both The Champion and The News are already hustling material to the front to resume the good work. Success to them.

Governor Folk of Missouri has been caught in the act of accepting a bribe in exchange for a pardon. The prisoner was sent to jail for six years for false registration but does not seem to have understood what he was doing. His wife with her three children came to see the Governor, but he was still in doubt. The prisoner's five-year-old daughter approached him timidly and said, "If you let my papa go I'll give you a kiss." The Governor replied a trifle huskily: "All right, little girl, you shall take him home with you."

LAWSON AND THE POLICY HOLDERS.

The Georgia holders of policies in the Mutual Life and New York Life Insurance Companies of New York have arranged to meet in Atlanta on December 12th to elect representatives to attend the next annual meetings of those companies and use their proxies in the way that will seem best at that time for their interests, says The Savannah Morning News.

We have received an anonymous communication asking an opinion as to the advisability of policy holders in the Equitable, Mutual and New York Life sending their proxies to Thos. W. Lawson of Boston—the Lawson who has become well known throughout the country as the writer of certain sensational magazine articles on Frenzied Finance. We seldom take notice of anonymous letters, for the reason that, as a rule, the writers of them have a purpose in view which they do not disclose. In other words, they are not entirely sincere. We have no doubt, however, that there are a good many policy holders in this State who do not know whether or not it would be advisable to go into partnership with Mr. Lawson.

We do not know anything more about Mr. Lawson than what he discloses in his frenzied finance articles, but it seems to us they disclose enough to justify policy holders in sending their proxies to some one who has had much less to do with Wall street than Mr. Lawson, according to his own story has. We do not mean that Mr. Lawson wouldn't do what he thought would be best for the policy holders, but he seems to have a pretty strong feeling against the leading officials of the great life insurance companies and it would be only human nature for him to permit his feelings to influence his judgment.

The wiser plan, it seems to us, would be to send proxies to some such man as Stuyvesant Fish, who is a director in the Mutual. In New York he has the confidence of those who are investigating the companies and also of the companies. There is no doubt that if he should consent to receive proxies, he could be relied upon to do the best that could be done for policy holders. And there are directors of each of the companies who have had no part in the grafting, and who are anxious that the interests of the policy holders shall be properly cared for.

In our dispatches yesterday the statement was made by the chairman of the Armstrong Investigating Committee that policy holders would make a mistake by surrendering their policies. The companies are all sound financially. The grafting to which they have been subjected has made scarcely any impression upon them. Besides, the legislation that the Armstrong Committee will recommend will so safeguard the interests of policy holders that, in future, the amount of graft will be very small. There is no particular reason at present why policy holders should be uneasy. If they are going to take part in the annual elections of their respective companies they should endeavor to select as directors men whom they have reason to believe have no axes to grind and no enemies to punish, so far as life insurance companies are concerned, and who can be depended upon to interest themselves in the business of the company with which they are connected to the extent of not sanctioning any wrong doing of any sort.

Plain English might be said to be the language used by the German government to the Socialists. The official organ has issued a solemn warning to them not to follow the example of the Russians. If the German Socialists allow themselves to be overcome with intoxication by the success of the Russian revolutionists, warning is given that they will repent, as the government will crush the slightest sign of revolt with bloodshed.

INDUSTRIAL EDITION.

The Industrial Edition of The Gainesville Sun is before us. It is an excellent advertisement for Alachua county, recording as it does the growth, progress and development of that flourishing section. The edition is profusely illustrated, attractively made up, and is a credit to its publishers.—Palatka Times-Herald.

The Industrial Edition of The Gainesville Sun, thirty-two four-column pages in magazine form, is a fine production both mechanically and editorially and should rank high among the information literature of the State.—Fernandina Star.

The Gainesville Sun has issued an Industrial Edition which is right up to now and a credit to that grand old county. The beauty is, nothing is overdrawn.—Wildwood News.

We are in receipt of the Industrial Edition of The Gainesville Sun, a 32-page paper beautifully illustrated and filled from cover to cover with interesting facts about Gainesville, Alachua county and the State of Florida. It is such papers as this that is building up Florida, and no paper in the State has done more to develop the country than The Gainesville Sun.—Wauchula Advocate.

The Gainesville Sun's Industrial Edition was a beauty—right up-to-date in every respect.—Crystal River News.

California oranges are now being shipped to London at a rate of $1 per 100 pounds, that charge covering both rail and ocean freights, says The Savannah News. The rate across the continent to American cities is $1.25 per 100 pounds. The California rate to London is said to be much lower than the rate allowed Florida, giving California oranges a decided advantage over Floridas in the London market. But if the Londoners are wise with respect to the flavor of fruits, they should be willing to pay a great deal more for Florida oranges—the finest in the world. But that is no reason for a discrimination against Florida.

FOR WOMEN AND WOMEN ONLY

Much That Every Woman Desires to Know About Sanative, Antiseptic Cleansing and the Care of the Skin, Scalp, Hair, and Hands.

WHAT CUTICURA DOES FOR WOMEN

Too much stress cannot be placed on the great value of Cuticura Soap, Ointment, and Pills in the antiseptic cleansing of the mucous surfaces, and of the blood and circulating fluids, thus affording pure, sweet, and economical local and constitutional treatment for weakening ulcerations, inflammations, itchings, irritations, relaxations, displacements, pains, and irregularities peculiar to females. Hence the Cuticura remedies have a wonderful influence in restoring health, strength, and beauty to weary women, who have been prematurely aged and invalided by these distressing ailments, as well as such sympathetic afflictions as anæmia, chlorosis, hysteria, and nervousness.

Women from the very first have fully appreciated the purity and sweetness, the power to afford immediate relief, the certainty of speedy and permanent cure, the absolute safety and great economy which have made Cuticura the standard humour remedy of the civilized world

TORTURING HUMOR

Cured by Cuticura.

"I suffered five years with a terrible itching eczema, my body and face being covered with sores. Never in my life did I experience such awful suffering, and I longed for death, which I felt was near. I had tried doctors and medicines without success, but my mother insisted that I try Cuticura. I felt better after the first application of Cuticura Ointment, and was soon entirely well. Mrs. A. Etson, Bellevue, Mich.

Cuticura Soap, Ointment, and Pills are sold throughout the world. Potter Drug & Chem. Corp., Boston, Sole Props. "Send for "A Book for Women."

LaGrippe and Pneumonia.

Pneumonia often follows lagrippe, but never follows the use of Foley's Honey and Tar. It cures lagrippe, coughs and prevents pneumonia and consumption. Ask for Foley's Honey and Tar and refuse any substitute offered. Mr. G. Vacher, 157 Osgood street, Chicago, writes: "My wife had a severe case of lagrippe three years ago and it left her with a terrible cough. She tried a bottle of Foley's Honey and Tar and it gave immediate relief. A 50-cent bottle cured her cough entirely." Refuse substitutes. J. W. McCollum & Company.

Jamison Still In Jail.

Macon, Ga., Dec. 7.—Although his bond is fixed at only $100, Henry Jamison, the negro twice released from the Bibb county chaingang by Judge Speer, is still behind the bars of the Bibb county jail. Just why he has not given bond is not known, although this is only the same amount fixed at the time he was first released, which he promptly gave. He spends his time pacing his barred cage, patiently waiting for the time to arrive when he will be arraigned before Judge Speer in Valdosta on Dec. 11.

The Requisite of Beauty.

The first requisite of beauty is a clear complexion. Orino Laxative Fruit Syrup clears a sallow, blotched complexion, as it stimulates the liver and bowels, and the eyes become bright and clear. REPORTS SHOULD BE ABOLISHED

Manufacturers Object to Publication of Reports on Estimates.

Fall River, Mass., Dec. 7.—The local cotton manufacturers express themselves as greatly dissatisfied with the government's system of issuing cotton reports, and some of them are asking that action be taken by the manufacturers of New England looking toward its abolishment.

It was pointed out here today that one of the largest firms of cotton brokers in the country, with headquarters at Philadelphia, has been asking its customers to sign petitions to the government, looking toward the same end.

One of the mill officials said today:

"The immediae effect of the report in this manufacturing center has been to reduce the wage margin 6 per cent, to stifle the demand for cloth, and to upset the calculations of mill men who have been trying to buy cotton from southern planters at some fixed price.

"Telegrams received from the south show that planters are relying on the accuracy of the government report to such an extent that they will not offer their product below the speculative figures fixed on the New York exchange, and in most instances they say that they do not care to accept orders at the top prices, for the present at least."

It is understood that the manufacturers object to the publication of incomplete reports based upon estimates.

SERVANT ROBBED EMPLOYER.

$20,000 Worth of Valuables Have Been Recovered.

New York, Dec. 7.—Issac F. Lloyd second vice president of the Mutual Life Insurance company at the custom house yesterday identified diamonds, Jewelry and silverware to the value of $20,000 as his property and all were delivered to him.

Early in the year Mr. Lloyd's house was robbed, and Eva Werner, who had been a servant there was arrested in Chicago with her brother in law. She is under indictment, a prisoner in this city.

The customs authorities in Chicago learned that a man and woman were trying to dispose of diamonds in this city, representing them as smuggled. Government agents seized the gems and arrested the couple. The facts about the robbery here then came out.

ROME PRINTTRS ON STRIKE.

Eight-Hour Question Cause of Their Action.

Rome, Ga., Dec. 7.—The printers in the offices of the Rome Tribune, the Rome Publishing company, the Evening Herald and T. E. Clement's job office all walked out Tuesday because of the failure of these concerns to sign the eight-hour agreement.

The existing contract with the printers' union here expires on Dec. 31, but when the men learned that the unconditional contract would not be signed they walked out.

This leaves only one union shop, the Whitmire Printing company, and it is not known whether they will remain in the union or not.

JUDGE OPPOSED GIVING DIVORCE

No Defense Was Offered and the Court Filed Demurrer.

Columbus, Ga., Dec. 7.—Judge William A. Little of the superior court, announced Tuesday that hereafter no divorces will be granted in Muscogee superior court except on strictly legal grounds. A divorce case came up for trial in which no defense was offered by the defendant.

Judge Little himself filed a demurrer in the case, calling attention to the fact that the divorce was not asked for on legal grounds. The attorney for the plaintiff withdrew the petition. It may be filed anew in amended shape.

Little Girl Burns to Death.

West Point, Ga, Dec. 7.—A little daughter of one of the mill operatives at Lanett was burned so badly that she has since died. The child had gone to school and went in with the teacher, who turned aside to take up her hat, when the little girl, who was warming herself before an open fire, became enveloped in flames. She was thinly clad and her garments burned instantly.

Doctors Could Not Help Her.

"I had kidney trouble for years," writes Mrs. Raymond Conner of Shelton, Wash., "and the doctors could not help me. I tried Foley's Kidney Cure and the very first dose gave me relief and I am now cured. I cannot say too much for Foley's Kidney Cure." It makes the diseased kidneys sound so they will eleminate the poisons from the blood. Unless they do this good health is impossible. J. W. McCollum & Co.

TRAGEDIES FOLLOW RAPIDLY.

Miss Collins Is Killed, Miss Gibson Is Burned to Death.

Blackwater, Va., Dec. 7.—The little community around Kyle's Fort, Tenn., has been the scene of two shocking accidents in the last 24 hours.

The first, occurring Monday afternoon, was the acidental killing of Miss Rosa Collins, a well known young lady of the neighborhood, by the discharge of a shotgun in the hands of Cephas Roberts while he was examining the gun in the home of Miss Collins' father.

The second was the burning to death of Miss Anna Gibson and her mother. The daughter's clothing caught fire and the mother, running to her rescue, was also enveloped in the flames.

Coughing Spell Caused Death.

"Harry Duckwell, aged 25 years, choked to death early yesterday morning at his home in the presence of his wife and child. He contracted a slight cold a few days ago and paid but little attention to it. Yesterday morning he was seized with a fit of coughing which continued for some time. His wife sent for a physician, but before he could arrive another coughing spell came on and Duckwell died from suffocation.—St. Louis Globe Democrat, December 1st. 1901." Ballard's Horehound Syrup would have saved him. 25c, 50c and $1. Sold by W. M. Johnson.

Contemplated Changes in Football.

Cambridge, Mass., Dec. 7.—Catch William T. Reid, Jr., of the Harvard football team, returned yesterday from Washington, where he had a conference with President Roosevelt on Monday. "The president sought to get my views," said Mr. Reid, "on a change of the game which will permit of its being continued without the disagreeable results which have accompanied it in the past few years. There was nothing accomplished that can be given out."

Furious Fighting.

"For seven years," writes Geo. W. Hoffman of Harper, Wash., "I had a bitter battle with chronic stomach and liver trouble, but at last I won, and cured my diseases by the use of Electric Bitters. I unhesitatiagly recommend them to all, and don't intend in the future to be without them in the house. They are certainly a wonderful medicine, to have cured such a bad case as mine." Sold under guarantee to do the same for you, by all druggists at 50c a bottle. Try them today.

The surest thing on earth to get a man's system "out of whack" is heavy, soggy bread, which is caused by several reasons: First, the material may not be good; second, the cooking may be poor. The best flour in the world will make the heaviest bread if improperly mixed or cooked. WE USE THE BEST FLOUR and our "long suit" is knowing how to mix and bake it. Our bread does not cost any more than home-made, and in many instances it is so much more palatable.

THE FIRST LOCOMOTIVE.

It Was Built by Oliver Evans, Who Couldn't Lay Up Money.

The real inventor of the locomotive never realized a cent from his invention.

His name was Oliver Evans. He was born in Delaware in 1756 and spent all his life perfecting inventions which were destined to bring him nothing but more poverty. He was the original inventor of the high pressure engine used in locomotives, the only kind that could be employed to advantage in this form of transportation, but realized nothing for his idea.

His application of the notion to both land and water power was somewhat novel.

In 1804 the municipality of Philadelphia called for bids for the dredging of the river and the cleaning of the docks. Evans put in a bid lower than any of his competitors and when it was accepted determined to build a steamboat to do the work.

He fitted out a scow with a steam engine, building both the engine and the scow in his own workshop.

When the boat was ready to be launched Evans determined to give the people of Philadelphia an object lesson in mechanics, so he put the boat on wheels, fitted up a push wheel behind, set his engine to work and propelled the boat through the streets to the river in the midst of an open mouthed throng, not a few of whom had a dim idea that he ought to be arrested for witchcraft.

When the boat reached the bank of the river, the wheels and axles were taken off, the craft was launched, fitted out with other wheels and made to do the work of dredging the harbor.

So far as the invention of mechanical devices went Evans had a splendid genius, but when dollars and cents came up for consideration he was a mere child, and even allowed himself to be cheated out of the money that was due him for cleaning the Philadelphia harbor with his new fangled steamboat.

THE PUEBLO INDIANS.

Their Religion Is In a Way a Species of Water Worship.

Eagle feathers are much used in the ceremonials of the Pueblo Indians, and in order to make sure of a supply the Zuni keep the birds in cages, plucking a few feathers whenever they happen to want them. On the other hand, the Moki have eagles' nests located at various spots within thirty or forty miles of their towns, which are considered the property of different clans among them. The eagle lays its eggs in the same nest year after year, and the clans inherit rights to certain nests from generation to generation.

The eagles are not killed, but the new fledged young ones are taken from the nest—that is to say, all but one or two, which must be left. To remind the eagle god to encourage the laying of more eggs by the birds an egg carved out of wood is placed where the divinity will be sure to see it; also, after being plucked, the eaglets are carefully buried in a certain cleft in the rocks, which is the eagle cemetery. Here the eagles have been interred for centuries, and the place is very sacred.

The Pueblo Indians have a tradition of the flood, and they say that the turkey is marked in commemoration of that event, its tail being black at the end where it was dragged through the mud after the water had subsided. The duck is another sacred bird, being associated with water. From the Pueblo point of view, anything that is related to the all precious water in any way is an object of worship. Their religion is made up to a great extent of aquatic divinities and might be called species of water worship.

How to Clean Old Book Plates.

To restore old book plates that have been injured by age and damp proceed as follows: Place upon a flat surface a piece of white paper somewhat larger than the print to be cleaned. Carefully dampen the print on both sides with soft, wet sponge and then saturate with a mixture of chloride of lime and exalic acid dissolved in about equal proportions in a pint of cold water. You can tell when the mixture is right by its turning magenta color. Continue to apply it until every stain and spot has disappeared and then with a wet sponge wash the print freely in cold water.

Few Chances.

"You must try to love your papa as much as he loves you," said the visitor. "Can't love him more!" replied Tommy.

"Well! Doesn't your papa love you very much?"

"Yes, much. He says he only loves me when I'm good."—Philadelphia Press.

In Mad Chase.

The world is in mad chase after health, from one extreme of faddism to another, when, if they could only get good food, and keep their bowels regular with Dr. King's New Life Pills, their troubles would all pass away. Only relief and quick cure for liver and stomach trouble. 25c at all druggists guaranteed.

STOCKHOLM.

The City of a Thousand Islands and Rocky Reefs.

From Sweden's capital an enthusiastic visitor writes: "The sky has an almost Italian radiance as the sun shines clear and bright on the glittering levels of the lagoon that divide the new town from the old. Across the water, on which a fleet of white ferryboats ply, rises the broad front of the palace, the stern outline of which is relieved by the russet glow which time has lent to the brickwork. In front of the palace runs a broad quay crowded with shipping, behind which one may catch peeps of narrow, winding streets, with sloping roofs and painted houses quaint with age. The square front of the palace rises above the red and gray roofs, seeming to command the old city. On my right the waters narrow to a swift rushing stream, over which a stately bridge has been thrown, uniting the palace with the picturesque pile of the opera house, or, rather, with the broad square in which it stands. Behind the opera house lie broad streets of modern houses, in which there are unexpected glimpses of waterways crowded with shipping.

"Stockholm is built on a series of islands formed by Lake Malaren. It is, indeed, the city of a thousand islands and rocky reefs, which are sown broadcast many miles beyond the mainland, where the lake and river join the sea. The steamers which ply up and down the lake afford endless excursions. Seaward you may sail a day among the islands until you reach the long, low reefs on which the Baltic beats.

"In spite of their cold climate the Swedes delight in the open air. After the indoor life of English or American cities it is a great pleasure to take one's meals out of doors, although it may sometimes be necessary to dine wrapped in an overcoat. We have seen people dining in the Tivoli gardens beneath awnings and umbrellas in the rain. This habit may explain the health and vigor of the Swedes."

POINTED PARAGRAPHS.

Crazy people never think they are crazy. Are you crazy?

The average person places too much confidence in an apology.

People are not so much interested in your grievances as you think they are.

It is one thing to appreciate a compliment and another thing to swallow it.

A woman never used powder that a man didn't notice it. But women say, "Men are so easily fooled!"

Men don't like men very well; women don't like women very well either. And men quarrel with women sometimes.

When a man regrets that he didn't get much schooling in his youth, somehow his sons who have to go to school don't sympathize with him as much as he expected.—Atchison Globe.

Torture of a Preacher.

The story of the torture of Rev. O. D. Moore, pastor of the Baptist church of Harperesville, N. Y., will interest you. He says: "I suffered agonies, because of a persistent cough, resulting from the grip. I had to sleep sitting up in bed. I tried many remedies without relief until I took Dr. King's New Discovery for Consumption, Coughs and Colds, which entirely cured my cough and saved me from consumption." A grand cure for diseased conditions of throat and lungs. At all druggists; price 50c and $1.00, guaranteed. Trial bottles free.

He Set the Pace.

"You seem bound and determined to live right up to my salary."

"I'm merely trying to live up to the diamond and things you gave me when we were engaged, dear."—Houston Post.

A Poor Sort of a Golfer.

Sandy, having been asked if Mr. Meadowcroft was a golfer, replied: "Weel, no; not a real one. He missed a game to be at home when his second child was born."—Chicago Record-Herald.

Her Happiness.

He—I shall be just miserable when I have to go away and leave you.

"Oh, Jack, if I were sure of that I'd feel so happy!"—Life.

Oh, that you could turn your eyes toward the napes of your necks and make but an interior survey of your good selves!—Shakespeare.

Remarkable Cure.

"I was much afflicted with sciatica," writes Ed C. Nud, Iowaville, Sedgwick Co., Kan., "going about on crutches and suffering a deal of pain. I was induced to try Ballard's Snow Liniment, which relieved me. I used three 50c bottles. It is the greatest liniment I ever used. Have recommended it to a number of persons. All express themselves as being benefited by it. I now walk without crutches, able to perform a great deal of light labor on the farm." 25c, 50c and $1. Sold by W. M. Johnson.
